

# Bird Deterrent Tape

Available at Visitor Information Centres across the Somerset Region

Somerset Regional Council has partnered with the University of Queensland and the Department of Transport and Main Roads to conduct a research survey into the Brisbane Valley Rail Trail. The survey seeks your views about the Brisbane Valley Rail Trail and will help improve the visitor experience in the future.

In exchange for filling out a survey you will receive some bird deterrent tape. You can attach this to your bike helmet to help deter swooping birds.

Scan to access the survey
